6. Venue is proper in this district under 28 U.S.C. §1400(b) because Defendant, Londerville, is a Wisconsin corporation and therefore resides in Wisconsin.

STATEMENT OF FACTS

7. Plaintiff repeats and re-alleges each and every allegation of paragraphs 1-6 as though fully set forth herein.

8. GLM is the assignee and lawful owner of United States Patent Nos. 6,209,942, entitled “Extruded bunk stakes, bunks and bunk pockets for logging trucks and trailers” (“the

'942 patent), and 6,468,008, entitled "Apparatus for constraining the position of logs on a truck or trailer" ("the '008 patent").

9. The '942 patent and the '008 patent have been duly examined and issued by the United States Patent and Trademark Office ("USPTO").

10. The sole named inventor and assignor of the '942 patent and the '008 patent is Craig French.

11. A true and correct copy of the '942 patent is attached as Exhibit A and made a part hereof.

12. A true and correct copy of the '008 patent is attached as Exhibit B and made a part hereof.

13. As the owner of the '942 and '008 patents by assignment, GLM is authorized and has standing to bring legal action to enforce all rights arising under the '942 and '008 patents.

14. The '942 patent claims include an apparatus for constraining a load generally comprising a bunk; a bunk pocket supported by the bunk; and a stake vertically positionable in the bunk pocket, with the stake having an extruded hardened aluminum main body and a centrally located supporting web integrally formed therein traversing the depth of said stake, the web being positioned perpendicular to a load it will constrain and extending the complete length of the interior of said stake, the stake including internally and externally radiused corners which add to the structural integrity of said stake, the radiused corners of the stake, on the outside corners, internally and externally, and internally adjacent to the centrally located web, transfer the pressure of the load constrained by said stakes to all the perpendicular members of said stake, walls and web.

15. The '008 patent claims include an apparatus for constraining a load generally comprising a bunk; a bunk pocket supported by the bunk; and a stake vertically positionable in the bunk pocket, with the bunk pocket comprising a plurality of side walls surrounding the stake, with the stake comprising a main body having a centrally located supported web integrally formed therein traversing a depth of said stake, the web being positioned perpendicular to a load that said stake will constrain.

16. Defendant, Londerville, has had actual and express notice of the '942 and '008 patents since at least February 6, 2017.

17. The actual and express notice of the '942 and '008 patents provided to Defendants by Plaintiff on February 6, 2017 provided Defendant with knowledge of '942 and '008 patents, the scope of the '942 and '008 patent claims, and provided notice to Londerville of its infringement. A copy of the February 6, 2017 letter is annexed hereto as Exhibit C.

18. Upon information and belief, based upon Defendant's copying of the GLM product, Defendant has known of the patent since at least December 2016.

This use is shown here:

22. The “Londerville Aluminum Log Stakes” are specifically designed and marketed to be vertically positionable in the Londerville “Seamless Stake Pocket(s)” and have an extruded, hardened aluminum main body having a centrally located supporting web integrally formed therein traversing the depth of the stake:

23. As shown in the images above, the “Londerville Aluminum Log Stakes” include internally and externally radiused corners which add to the structural integrity of said stake, and the radiused corners of the stake, located on the outside corners, internally and externally, and internally adjacent to the centrally located web, operate to transfer the pressure of a load constrained by said stakes to all the perpendicular members of said stake, walls and web.

24. Upon information and belief, Defendant Londerville, and/or third parties, including at least Western Wisconsin Fabricating, LLC, attach Londerville “Seamless Stake Pocket(s)” to bunks on a trailer such that the Londerville “Seamless Stake Pocket(s)” are supported by the bunks.

25. Upon information and belief, Defendant Londerville, and/or third parties, including at least Western Wisconsin Fabricating, LLC, vertically position “Londerville Aluminum Log Stakes” in Londerville “Seamless Stake Pocket(s)” attached to bunks such that the web is positioned perpendicular to a load it will constrain so that the pressure of the load constrained by the stakes is transferred to all the perpendicular members of said stake, walls and web.

26. Upon information and belief, Defendant, Londerville, utilizes the “Londerville Aluminum Log Stakes” and “Seamless Stake Pocket(s)” on trailer bunks in a manner infringing at least one claim of the ’942 and ’008 patents in the state of Wisconsin and elsewhere.

27. Upon information and belief, Defendant, Londerville sells or distributes the “Londerville Aluminum Log Stakes” and “Seamless Stake Pocket(s)” to others who utilize the “Londerville Aluminum Log Stakes” and “Seamless Stake Pocket(s)” on trailer bunks in a manner infringing at least one claim of the ’942 and ’008 patents in the state of Wisconsin and elsewhere, for example as demonstrated below:
